

DevOps Engineer (m/f/d)

immediate start | full time | in Stuttgart

WHO WE ARE:

We are internetstores – the leading specialist for bike and outdoor products in Europe. Founded in 2003, we are today among the biggest and most profitable e-commerce companies, with more than 40 online shops, more than 2 million page views per day and an unparalleled product selection. We are fahrrad.de, Bikester, Brügelmann, CAMPZ and Addnature and we have only one goal: offering our clients from 16 different countries every day quality products and latest trends for the best prices as well as an excellent shopping experience!

You want to be part of this success story and work behind the scenes of an international online retailer to promote our growth? Apply online - more than 550 colleagues in Stuttgart, Esslingen, Berlin, Lyon and Stockholm look forward to meeting you!

WHAT IT IS ABOUT:

As part of our DevOps team you will help to push Linux servers to the limit. We use multiple technologies to deliver high-availability and high-performance services. At internetstores we're self-hosting hundreds of clusters located on thousands of virtual servers. Together with the rest of our motivated and highly skilled team, you will cover full spectrum: managing infrastructure, private cloud, virtualization, networking, provisioning, automation, micro services etc. Your tasks will be maintaining, monitoring and optimizing existing and new solutions.

WHO WE ARE LOOKING FOR:

- You perform maintenance measures and supervise our high-performing Linux-based online shop system
- You optimize our server infrastructure
- You care for maintenance and expansion of our automated environment
- You configure our Private Cloud
- You directly communicate with the developers to find the best solutions
- You provide Level 2 and Level 3 support

WHAT YOU NEED:

- 2+ years experience with Linux servers
- Knowledge of Ruby or another scripting language
- Be familiar with Chef or another automation software
- Upper intermediate English to work within our international team
- Experience in maintaining High-Availability websites and clusters
- Experience with nginx/ apache/ tomcat/ php-fpm
- Experience with XEN/ KVM or other virtualization
- Experience with SQL/ NoSQL databases
- Experience with Cloudstack/ Openstack or other cloud solution is a plus

WHAT TO EXPECT:

An exciting job in a fast growing company in the heart of Stuttgart. We offer you a job with responsibility and creative leeway, employee discounts on our full product range, bike leasing, corporate benefits and amazing, international colleagues in all departments.
